3. Hazards identification	This product is classified as C; R34 (Corrosive; Causes burns) according to EU Directive 1999/45/EC. Eye contact: May cause burns Skin contact: May cause burns Ingestion: Ingestion of this product will result in serious gastrointestinal injury Inhalation: Inhaling aerosolized product may cause severe irritation of the respiratory system.																				
4. First-aid measures	Eye contact: Rinse thoroughly with plenty of water for several minutes. If symptoms persist, seek medical advice. Skin contact: Immediately rinse affected area with water. If needed apply cold compress to relieve irritation. If symptoms persist, discontinue use of product and seek medical advice. Ingestion: Drink a glass of water to dilute product. Do not induce vomiting. Act immediately in order to prevent further irritation of mouth, throat and stomach mucosa. If symptoms persist, if persistent vomiting occurs or if blood tinged vomitus is present, seek medical advice. Inhalation: Go in open air and ventilate suspected area. If irritation is experienced, mouth and throat may be rinsed with water. Aerosolized product adhering to the nasal cavity may be rinsed/diluted with saline/plain water. If irritation or asthma-like symptoms persist, seek medical advice.

SAFETY DATA SHEET (2001/58/EC)

CPG 98 - Issue 2
Issue Date: May 15, 2006
Valid until superseded
Item Code : PG/154b

5. <u>Fire fighting measures</u>	Not explosive. Not auto-flammable. Not flammable. The product itself will not burn. If anything, packaging may be involved in a fire. Use CO ₂ , dry chemical powders or alcohol resistant foam. If water is used, contain run-off.
6. <u>Accidental release measures</u>	Avoid spillage into sewers or surface water. For large spills: pump into plastic containers and rework/dispose as per local legislation. For small spills: use non-combustible absorbant and shovel into container for disposal. Do not bring in contact with acids. Do not use metal containers.
7. <u>Handling and storage</u>	Assure adequate ventilation. Store in a cool and dry area.
8. <u>Exposure controls / Personal protection</u>	This product is corrosive. Avoid contact with eyes and skin. Wear suitable protective clothing, gloves and eye/face protection.
9. <u>Physical and chemical properties</u>	Appearance: yellow liquid Odour: perfumed pH: ca. 7.5 Not Flammable. Non-Explosive. Non-Oxidizing. Density: 1,0 g/ml Water solubility: high
10. <u>Stability and reactivity</u>	Stable under normal conditions.
11. <u>Toxicological information</u>	Not acutely toxic; may cause vomiting. If large quantities are ingested, treat symptomatically. Do not induce vomiting. If irritant effects are seen, these will be moderate to severe, depending on exposure. If in contact with eyes, flushing with plenty of water is recommended. Estimated acute oral toxicity: LD50 (rats) n/a Skin irritation: Causes burns Eye irritation: Causes burns Chronic toxicity: Repeated exposure to low levels will not cause adverse effects Contact sensitization: Does not provoke a sensitization reaction
12. <u>Ecological information</u>	The product is intended for wide dispersive use and is compatible with the down-the-drain disposal route. The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment. The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation EC/648/2004 on detergents.
13. <u>Disposal considerations</u>	This material and its container must be disposed of in a safe way. Observe local legislation.
